

YOUR SAFETY, OUR PRIORITY!

1 DUAL WINDSCREEN WIPERS

Two windscreen wipers are always more efficient than one. This exclusive LIGIER feature guarantees the best wiping capacity on the market: 85 % of your windscreen, well above regulatory standards!

3 CERTIFIED HANDLING PERFORMANCE

Our Ligier vehicles have been recognised for their handling and dynamic responsiveness, exceeding standards thanks to Ligier's historic expertise in suspension and steering.

5 DAYTIME LED LIGHTS

For optimal visibility during the day, the daytime running lights automatically come on whenever the headlights are not in use. LED technology ensures exceptional illumination and low energy consumption.

2 DISC BRAKES FRONT AND BACK

Your Ligier is the only light quadricycle equipped with front and rear disc brakes for enhanced efficiency and bite.

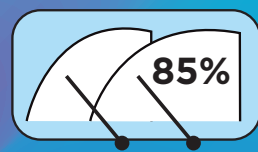

4 POWER STEERING

An exclusive technology that allows more vehicle control. Driving behaviour becomes more dynamic and unwanted jumping due to an uneven road is compensated.

6 FULL LED HEADLIGHTS

These headlights enhance your ability to detect the shape and colour of objects on the road at night, helping you anticipate and confidently handle any situation that comes your way.

EXCLUSIVE!

1+ 1= DUAL WINDSCREEN WIPERS
UNBEATABLE VISIBILITY

Ligier's dual windscreen wiper is the only product on the market capable of covering such a large windscreen surface. Optimal visibility, for maximum safety.
